

EUROCORES Call for Theme proposals

Proposals for the creation of new EUROCORES Programmes in and across all scientific fields.

EUROCORES Themes are bottom-up proposals for the creation of new collaborative research programmes dealing with broad and complex topics which are best addressed through multinational cooperation.

Through its annual call for theme proposals, ESF solicits new ideas from the scientific community with a view to creating large-scale EUROCORES Programmes.

```
|-----|
|           2010 Call for Theme Proposals opens: 1 March 2010           |
|           Deadline for submitting theme proposals: 21 May 2010       |
|-----|
```

More information at:

<http://www.esf.org/activities/eurocores/about-eurocores.html>

and

<http://www.esf.org/activities/eurocores/calls/theme-proposals.html>

The new call is not out yet but probably will go on line on March 1. Watch out!!!!
