#### **Head of sleep laboratory and clinic**

The Hospital Ruber Internacional is a private practice centre located in Madrid, Spain. It provides specialist services for patients nationally and overseas.

The Department of Neurology consists in a team of 13 neurologists, 2 neuropsychologists, one clinical psychologist, 5 nurses, 5 technicians and 6 administrative posts, including fully established programs in epilepsy, headaches and movement disorders.

The hospital is equipped with up-to-date technology, such as high field MRI (3 Tesla), EMG/ENG, video-EEG and a sleep laboratory with two bed polysomnography, actigraphy and ambulatory polygraphy.

The Department of Neurology is looking for a neurologist with specialist training in sleep medicine in order to take care of the sleep laboratory and clinic. The holder will have responsibility for innovation and service development, including the establishment of long term and annual plans for both clinical and research work. The candidate should be certified in neurology in an European Union country and have high-level knowledge of Spanish language.

For further information or to arrange an informal visit please contact Dr. O. Franch on +34-913875250 or email [neurologia@ruberinternacional.es](mailto:neurologia@ruberinternacional.es).
