Dear Colleague,

The aim of the European Sleep Research Society (ESRS) is to promote sleep research in Europe, to improve patient care with sleep disorders and to disseminate information regarding sleep research.

Since its foundation in 1972, the number of members has steadily increased. Members come from European countries as well as from countries outside of Europe. The Congress of the ESRS is the major scientific event of the Society. The 4-day congress which is held every two years, consists of symposia, workshops, lectures, free communication sessions and teaching sessions. The ESRS Business Meeting is also held during the meetings. The congress abstracts are published as a supplement of the Journal of Sleep Research (JSR). The ESRS owns and manages JSR (published by Blackwell Science Ltd., Editor D.J. Dijk). The quarterly ESRS Newsletter informs on the activities of the Society, meetings, new books and other topics of interest. The ESRS is a founding member of the World Federation of Sleep Research Societies.

Membership includes the following benefits:

- subscription to the ESRS Newsletter
- subscription to the Journal of Sleep Research including the supplement with the congress abstracts
- further benefits according to membership level

Applications for corporate membership must be accompanied by payment of the membership fee of the current year. We welcome applications from companies operating in the field of sleep to become members of the Society and to promote thereby sleep research in Europe.

For more information on ESRS see: www.esrs.eu
